(Abril 2022)

Universidad del Valle

Cali, Colombia

Sanitary and Environmental Engineering (2015-2022)
Degree Project: "Simulation of the chemical stability of water in drinking water treatment plants supplied by the Cauca River in the municipality of Cali - Colombia, using the hydrogeochemical model PHREEQC".

WORK EXPERIENCE

SOS Ambiental Ingeniería SAS January - May 2022

I was in charge of a sampling and design project from the planning phase to the sampling phase.

I was part of different projects, where I was allowed to develop teamwork skills.

I organized and digitized different types and amounts of data.

Supervisor: Ing Sara Ordoñez - 301 622 3010

Independiente

September - November 2021

IOHS ingenieros.

I drew up plans on behalf of the company, where I had the opportunity to learn to manage and organize my time.

Supervisor: Ing Ricardo Muñoz - 318 707 8458

Análisis Ambiental SAS

August- September 2020

Perform sampling tasks, where I worked as part of a team and coordinated such tasks.

Supervisor: Alex Pizarro - 316 354 1127

Universidad del Valle

Febrero - Junio 2019

I worked as a laboratory monitor, where I was able to serve as support for the different work groups, as well as the director in charge of the laboratory.

Supervisor: Yelitza Zorrilla - 313 563 2077
